

8TH ANNUAL
**ROCK
THE
DOCK**
BENEFIT
JULY 3, 2016

Help us give local youth the opportunity to create lasting memories on Lake Champlain this summer. Proceeds from Rock the Dock support the Community Sailing Center and remove financial barriers so anyone can have access to the most beloved treasure of our state.

Not only does the Rock the Dock Benefit help fund over 1,818 meaningful scholarships annually, it is also a party to remember! Each year, over 350 attendees enjoy a fantastic evening on the CSC dock celebrating the holiday directly under the fireworks.

As an area business sponsor of the event you will be recognized as a supporter of the CSC and gain valuable exposure to event attendees and the community at large.

LOVE YOUR LAKE

The Community Sailing Center provides access to Lake Champlain for all interested youth, adults, and families. Rock the Dock provides scholarship funds for our diverse programs and helps those who could not otherwise afford to discover this great resource. Thanks to our generous community, no one is turned away from learning on the lake because of financial limitations. Some of our programs include:

The **WAVES Initiative** weaves lake ecology and stewardship into every hour of CSC programming.

The **Adaptive Watersports Program** uses specialized sailboats and teaching methods to make sailing accessible for people with cognitive and physical disabilities.

Leader Ship gives economically disadvantaged people from collaborating social service organizations the opportunity to grow through the challenge of sailing and effective communication between peers.

Women in Wind uses science and sailing as means for Vermont women and girls to cultivate their leadership and communication skills.

Floating Classrooms brings science and math to life with hands-on learning on the lake for 3rd, 4th, and 5th grader in the Burlington School District.

More than **60 community partners**, which include local non-profits and businesses, rely on us to provide life-changing on-the-water experiences.
